

SVETILKA OLIGHT M20S-X

The Olight M20S Warrior Special Operations model features an extra button on the side of the tail cap to allow the user single handed operation with direct access to illumination mode and tactical strobe. With the light turned off the side button provides instant access to the strobe mode to ensure quick operation in urgent situations. The side button can also be used to cycle through modes when the light is turned on with the tail button.

Three output levels:

Low = 10 lumens (85 hour runtime)

Medium = 100 lumens (5 hour runtime)

High = 500 lumens (1.5 hour runtime)

Strobe = 500 lumens

Can be powered by 2 x CR123A or 1 x 18650.

A great quality, compact torch with class leading output. The pocket clip can be removed, as can the tactical grip ring for a smooth profile. Beam has a gradual transition from hotspot to side spill with zero artifacts.

- Uses the world-class super bright Cree XM-L LED.
- 10 lm (85hrs) - 100 lm (5hrs) - 500 lm (1.5hrs);
