

WINTER JACKET PARAMEDICS SECURITAIID TECHNICAL DATASHEET

CLASS III
EN ISO 20471:2013 C3

The winter jacket for Paramedics is a must in colder months of the year. It's sturdy and durable but it still enables dynamic movement, needed for quick reactions in all kinds of scenarios. The many thought-out details of the model and the greatest ergonomic comfort possible makes this model a smart choice for any EMT professional.
